

Good Health and Well-being

GOAL 3

01

Reduce maternal mortality
By 2030, reduce the global maternal mortality ratio to less than 70 per 100,000 live births.

02

End preventable child deaths
Ensure that no child under the age of 5 dies from preventable causes.

03

Fight communicable diseases
End epidemics of AIDS, tuberculosis, malaria, and neglected tropical diseases.

04

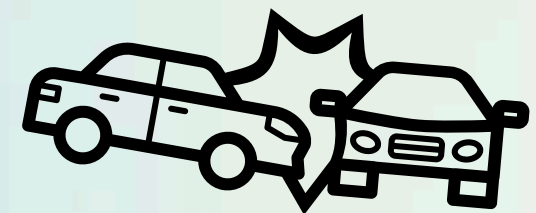

Reduce non-communicable diseases (NCDs)
Lower the risk of heart disease, cancer, diabetes, and chronic respiratory diseases.

05

Combat substance abuse
Strengthen prevention and treatment of drug and alcohol addiction.

06

Reduce road traffic deaths and injuries
Improve road safety and reduce traffic-related fatalities.

07

Ensure access to sexual and reproductive health services
Provide safe, respectful, and accessible care for all.

08

Achieve universal health coverage (UHC)
Ensure everyone has access to essential health services and affordable medicines.
